

Wildfire recovery in the U.S., particularly in California, is a slow and complex process hindered by unique post-fire challenges like housing shortages, regulatory hurdles, and underinsurance, but innovative solutions are emerging to improve resilience and equity.

Crystal A. Kolden
Associate Professor in the Management
of Complex Systems
School of Engineering, UC Merced

Monday, February 3, 2025
2 p.m. – 4 p.m.
UCLA California NanoSystems Institute

Light refreshments will be available starting at 1:30 and there will be a Q&A session following her talk.
